Career Objective

Motivated Mechanical Engineering student with hands-on internship experience in energy management, manufacturing processes, and CAD design. Seeking an entry-level Mechanical Engineer position to apply my technical knowledge, problem-solving skills, and contribute to the organization's growth.

Education

University of Visvesvaraya College of Engineering, Bengaluru B.Tech in Mechanical Engineering (CGPA: 7.67)	2023 – 2027
konnur PU College, Yallati PUC - (88.5%)	2023
Minority Morarji Residential School, Inachagal SSLC-(89.76%)	2021

Internship

JSW Steel Ltd. – Mechanical Engineering Intern Ballari, Karnataka

- Gained hands-on exposure to industrial energy management systems, including the Energy Management Centre, gas distribution networks, gas holders, gas boosters, and boiler operations.
- Monitored the distribution and utilization of process gases such as Blast Furnace Gas, COREX Gas, Coke Oven Gas, LD Gas, Oxygen, Nitrogen, and Steam used in steel manufacturing.
- Learned industrial safety practices, preventive maintenance, and energy conservation techniques in a large-scale integrated steel plant.

Projects

Design and Analysis of Suspension System

- Designed a two-wheeler suspension spring using SOLIDWORKS and performed stress, deflection, and fatigue life analysis using ANSYS.
- Compared Chrome-Silicon Steel and Titanium Alloy to evaluate strength, weight, and durability for optimal material selection.

Design of an Automatic Pneumatic Bumper System

- Designed an automatic pneumatic bumper system to reduce vehicle impact during collisions using pneumatic components.
- Developed a SOLIDWORKS model and explained the working principle to improve vehicle safety and impact absorption.

Skills

Core Engineering: -Strength of Materials, Manufacturing Processes, Thermodynamics, GD&T

Design Software: - solidWorks, CATIA V5

Soft Skills: - Adaptability, Problem-Solving, Leadership

Training & Certifications

Complete SOLIDWORKS Beginner Course (Udemy)

- Completed the Udemy SOLIDWORKS Beginner Course and gained hands-on experience in part modeling, assemblies, and 2D drawings.

Campus Champ

- Successfully completed the Campus Champ training program focused on aptitude, problem-solving, communication and interview preparation.
