Career Objective

- Computer science and Engineering student with strong foundations in programming and problem solving, seeking an entry-level role in the IT industry. Eager to apply technical skills in software development and contribute to building efficient, scalable solutions.

Technical Skills

Programming: Java, C, HTML, CSS, JS

Core Subjects: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, MYSQL

Backend Development: Spring Boot

Tools: Git, GitHub, VS Code, IntelliJ IDEA,

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration

Projects

Real-Time Emergency Response & Dispatch System *Java, Spring Boot, MySQL, Hibernate, JPA, REST API* **2026**

- Developed a full-stack Real-Time Emergency Response Dispatch System using Java 21, Spring Boot, React, MySQL, JWT Authentication, WebSockets.
- Designed and implemented role-based access control (Citizen, Responder, Admin) with secure JWT authentication and Spring Security for protected REST APIs.
- Built an automatic nearest responder dispatch engine using the Haversine distance algorithm, enabling real-time responder assignment based on GPS location and emergency type.
- Implemented live GPS tracking and real-time communication using Spring WebSocket, allowing citizens, responders, and administrators to receive instant updates without page refresh.
- Implemented live GPS tracking and real-time communication using Spring WebSocket, allowing citizens, responders, and administrators to receive instant updates without page refresh.

College Management System | *Java, Spring Boot, MySQL, Hibernate, JPA, REST API* **2026**

- Developed a full-stack web application to automate college operations including student management, faculty management, course allocation, and attendance tracking.
- Implemented secure authentication and role-based access control for administrators, faculty, and students using Spring Security and JWT.
- Designed RESTful APIs using Spring Boot and integrated MySQL database using Hibernate/JPA for efficient data management.
- Created a responsive user interface to simplify academic record handling and improve overall administrative efficiency.

Education

University of Visvesvaraya College of Engineering **Oct 2023 – 2027**

B.Tech in Computer Science and Engineering (CGPA: 8.9)

Bengaluru

Diamond PU College Basavakalyan

2023

PCMB - Karnataka State Board (93.6%)

Basavakalyan

Government Adarsh Vidyalaya School

2021

State Board (89.60%)

Rajola

Trainings & Certifications

- Enhanced communication, teamwork, and problem-solving skills through structured training and practical activities.
- Strengthened interpersonal, collaboration, and public speaking skills through active participation in group projects and discussions. Coding Achievements LeetCode
